

DESKTOP HIGH TEMPERATURE FURNACE

KDF-HT 1000

SPECIFICATION

Main unit	5kVA max.
Power consumption	Temperature rises to 1500°C in about 1 hour (furnace chamber empty)
Programming rate	
Maximum operating temperature	1500°C
Applicable temperature	1450°C
Internal dimension	Approx. W200 x H200 x D250 (mm) / 10L
Nett weight	Approx. 75kg
Heating element	6 pieces of silicon carbide heater
Thermal sensor	JIS R Thermocouple
Temperature controller	10 patterns-10 segments/each, available up to 100 segments by concatenation
Current control	Thyristor continuous phase control
Safety equipment	Earth leakage breaker, furnace door locking system, electricity cut-off when furnace door opened, and excessive temperature rise warning lamp
